

Starting in 2024

**MEDICARE PART D PATIENTS MAY  
PAY LESS FOR XTANDI<sup>®</sup>**

Astellas Pharma US, Inc. and Pfizer Inc. makes no guarantee regarding reimbursement for any service or item.  
The information provided in this document is intended for informational purposes only and is not a comprehensive description of potential out-of-pocket costs for patients.  
The information provided here should not be considered a guarantee of coverage or reimbursement for XTANDI<sup>®</sup>.

# FOR PATIENTS COVERED UNDER MEDICARE PART D, PRESCRIPTION MEDICINE COSTS MAY BE LOWER IN 2024

Medicare Part D is a prescription drug insurance benefit.

Medicare Part D has 4 phases<sup>1</sup>:

- **Phase 1 | Deductible:** The amount you pay before Medicare Part D pays its share.
- **Phase 2 | Initial Coverage:** After you meet your deductible you'll begin to share costs with Medicare Part D for your medicines in the form of co-payments/coinsurance.
- **Phase 3 | Coverage Gap** (also known as the Donut Hole): Is a temporary limit on what your Medicare Part D plan will cover for medicines. You will share costs with the manufacturer of your brand-name medicine instead of Medicare. Medicare will still help pay for generic medicines during the Donut Hole.
- **Phase 4 | Catastrophic Coverage** (also known as the Safety Net): After the Donut Hole, you will pay \$0 for all Medicare Part D drugs for the rest of the year.

## Medicare Part D Patients May Pay Less for Their Prescription Medicines in Phase 4 of 2024 than in 2023

Recent changes in law have added a cap on how much Medicare patients need to pay for their Part D medicines in 2024. This means there will be a limit to the amount you have to pay for your prescription medicines.

- For the Deductible and Initial Coverage phases (phases 1 and 2), what you pay depends on your Medicare Part D plan.
- Estimates show that you could pay approximately **\$3,300 for all your Part D medicines** put together for 2024<sup>2,3</sup>.
- In 2024, once you enter the **Catastrophic Coverage phase** (phase 4), you pay **\$0** for the rest of the year<sup>2</sup>.
- XTANDI® (enzalutamide) patients may reach the Catastrophic Coverage phase after they have filled their first prescription for XTANDI. This means patients will have no further out-of-pocket costs for XTANDI or any other Part D medicines.

**Medicare Part D patients may pay less in Phase 4 of 2024 for medications than in 2023**

Support resources are available to help you understand your health coverage. See last page of this pamphlet for more information.

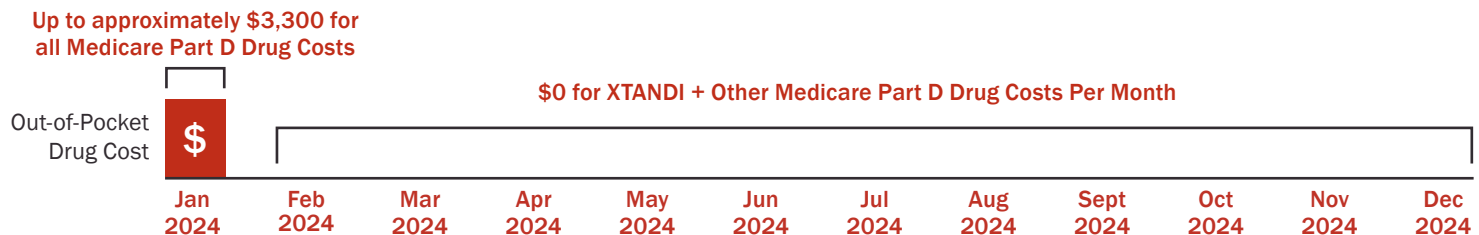

### Example Patient Scenario

**DEREK,**  
**age 69**

Derek was prescribed XTANDI in **January 2024**. Depending on his plan design and the benefit phase that he is in, his out-of-pocket cost can reach up to approximately \$3,300 in January, and then \$0 for the rest of the year.<sup>4,6</sup>

**2024**

### NO DRUG COSTS | DURING CATASTROPHIC COVERAGE PHASE IN 2024

# SOME MEDICARE PART D PATIENTS MAY QUALIFY FOR EXTRA HELP

**Extra Help** (also known as the Low-Income Subsidy, or LIS) is a Medicare Part D program that helps people with limited financial means pay for their prescription medicines.

**If you get Partial Extra Help in 2023, you could get Full Extra Help in 2024.<sup>6,7</sup>**

To decide if you are eligible, certain financial information is considered, such as your income and your assets, like a house or a car. If you meet these criteria, you may receive Partial Extra Help or Full Extra Help.

To find out if you are eligible for Extra Help, please visit the Social Security Administration website<sup>8</sup>: <https://www.ssa.gov/medicare/part-d-extra-help>

To be eligible for Extra Help in 2024, you must:

- Be enrolled in a Medicare Part D plan
- Live in the United States
- Earn no more than the established income limit and not own a lot of high-priced assets<sup>6,7</sup>

## With Extra Help, Medicare Part D Patients May Pay Even Less for Prescription Medicines in 2024

- If you receive Extra Help, Medicare will pay most of the costs of your prescription medicine
- In the first 3 phases of Medicare, your generic medicines will cost \$4.50, and your brand-name medicines will cost \$11.20 each time you get them filled
- When you get to the Catastrophic Coverage phase, you'll pay \$0 each time you fill any medicines for the rest of the year

**In 2024, everyone with Medicare Part D who qualifies for Extra Help may pay ≤\$11.20 for XTANDI<sup>®7</sup>**

### Extra Help 2024

**\$0 annual deductible**

**\$11.20 copay for branded  
\$4.50 copay for generics**

**\$0 Copay  
in Catastrophic  
Coverage Phase**

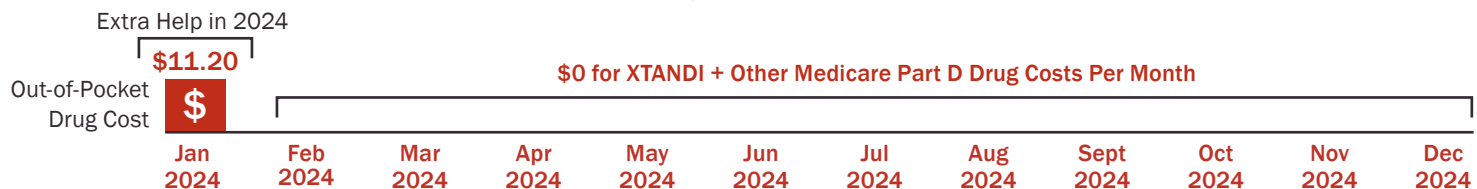

### Example Patient Scenario

**JACOB,  
age 66**

Jacob is prescribed XTANDI in January 2024. He receives Extra Help, so he pays a copay the first month and then nothing for the rest of the year once he hits the Catastrophic Coverage phase.<sup>\*, 3, 5, 6, 7</sup>

### NO OUT-OF-POCKET COSTS | DURING CATASTROPHIC COVERAGE PHASE IN 2024

\*Low-income subsidy covers the difference between \$11.20 and the Catastrophic Coverage threshold.<sup>7</sup>

## We're here to help you understand your coverage and support options.

Navigating your healthcare coverage can be overwhelming. But you don't have to do it alone. **XTANDI Support Solutions®** is here to help you understand your coverage and share financial support resources that you may be eligible for. Call us at **1-855-8XTANDI (1-855-898-2634)** to speak with a dedicated specialist. We're available Monday through Friday, 8am to 8pm ET.
